

KSoft Technologies

“ If you are not willing to risk the usual, you will have to settle for the ordinary ”

-Jim Rohn.

Welcome to our new e-newsletter! We hope you like the new design, new format and new ways of sharing our knowledge and news with you! Each month you'll get informative articles about updates on programs, technologies, and staff-related news.

Odoo Open Source ERP

One of the vision of KSoft Technologies in the year 2019 is to introduce a new domain called Odoo ERP.

Odoo is an all-in-one business software including sales, purchase, CRM, website/e-commerce, billing, accounting, manufacturing, warehouse - and project management, and inventory.

The Community version is the open source version while the Enterprise version supplements the Community edition with commercial features and services.

As a first step, KSoft developed a stable website with Odoo platform and also setup the HRM module for the employees. In the future we are looking forward to customize modules accordingly which ultimately produces all-in-one business concept.

Travel Online Application

This was an another milestone achieved by the company within the first quarter of its journey in 2019. The Travel app deals with the entire cycle of Ticket as well as Tour Booking.

Along with, provides financial statements depending on the Income and Expenses company incurred for a financial year.

Vision 2019

Sales is the backbone for every company – keeping in mind, marketing strategy for Q2, Q3&Q4 are under process and expecting a drastic improvement in the sales.

As part of this, there are plans for developing in-house projects later which can be opened for the sales team to deploy in the market.
